HE FACES HIS FATE.

Stensland on Way to Chicago.

Spends First Night in Jail and Emerges Pale and Tottering.

Declares He Is Not the "Bad Black Sheep" That He Has Been Painted.

Waives Extradition, and Is Anxious to Return to the Windy City.

(BY THE ASSOCIATED PRESS—P.M.)
NEW YORK, Sept. 25.—Paul O. Stensland, self-confessed embezzler of funds from the Milwaukee Avenue State Bank of Chicago, of which he was president, is now on his way to Chicago, a passenger on the Twentieth Century limited, ready and willing, he says, to admit his guilt, but at the same time determined to accuse others whom, he claims, were equally culpable for the wrecking of the institution and its attendant losses of millions of dollars.

Last night and early today, Stensland was a prisoner at police headquarters, but his prominence afforded him no privilege whatsoever. Following a sleepless night in a cheerless cell in which a pine board was the only resting place, he was lined up

with other prisoners and forced to pass in review before the detective sergeants. There he was measured and photographed for the headquarters gallery.

CHICAGO, Sept. 25.—[Exclusive Dispatch.] Sensational developments, involving men prominent in Chicago's financial life, who may be shown to be more guilty than Paul O. Stensland, for the fall of the Milwaukee Avenue State Bank, were assured today.

While Stensland is being rushed homeward, the State's Attorney's office is known to be making investigations, based on suspicion, directed against certain men, which may result in the discovery that Stensland was not the biggest "crook" in the looting of the bank.

Since Assistant State's Attorney Olson reached New York, with Stensland, State's Attorney Healy has received four telegrams giving the names of persons implicated by Stensland in the wrecking of the bank.

There are said to be three of these men, who are not under indictment, but against whom true bills will be voted as soon as Olson and Stensland reach Chicago.

One is said to be a prominent business man, formerly well known in politics, and another is an attorney. It was made practically certain today that the State's Attorney's office has several men under surveillance, State's Attorney Healy did not deny that such action was being taken, when directly questioned today.

"Perhaps greater 'crooks' than Stensland have yet to be turned up," was the manner in which Mr. Healy made known that the guilt of Stensland is not considered overshadowing.

Assistant District Attorney Barbour, armed with all the known forged notes and notes under suspicion, that have been discovered since the beginning of the bank inquiry, left on the Twentieth Century limited this afternoon to meet Stensland on his homeward journey. The presenting of the notes to the bank wrecker will result, it is thought, in new light on the identity of Stensland's supposed accomplices before the prisoner reaches Chicago.

JAPAN COURTS RUSSIA.

Mikado's Minister Declares Policy to Be Close, Economic Relationship With Slavs.
(BY DIRECT WIRE TO THE TIMES.)
TOKIO, Sept. 25.—[Exclusive Dispatch.] Matsuo, Minister of Agriculture and Commerce of Japan, says in an interview that people should remember the maxim that "Gold is sharper than a sword," and that expansion of commerce and industry creates the closest friendship between nations. For this reason the post bellum policy of Japan will be guided by peaceful inclinations and the principle of the open door, which lead to the strongest tie.

WILD HAZING OF FRESHMEN.

Nearly Five Hundred Participate, and Victims Are Covered With Paint, Ridiculed and Mocked by Tormentors—Wholesale Expulsions May Follow—Many Arrests Made.

(BY DIRECT WIRE TO THE TIMES.)
CHICAGO, Sept. 25.—[Exclusive Dispatch.] Fifty freshmen of the Armour Institute were kidnapped and imprisoned in a Wabash avenue barn, and subjected to barbarous treatment, mocked and ridiculed, while they lay suffering in gaudy coatings of house paint, with their hands and feet tied. They were rescued this morning only after long hours of misery.

Thirty-two of the victims' sophomore tormentors were put under arrest. Nearly five hundred participated in the wild hazing that lasted from midnight until 10 o'clock in the morning. Officials of the Armour Institute have started an investigation that may lead to wholesale expulsions.

GOVERNMENT AFTER NEELY.

PLAN VIGOROUS PROSECUTION TO RECOVER FUNDS EMBEZZLED.

Tried and Convicted, Uncle Sam Will Now Make Second Attempt to Get Money—President Roosevelt Is Interested—Attachments Obtained Against Property.

(BY DIRECT WIRE TO THE TIMES.)
NEW YORK, Sept. 25.—[Exclusive Dispatch.] Preparations are under way for the vigorous prosecution of the civil action of the United States government against Charles F. W. Neely, to recover \$123,424, for the embezzlement of which, while chief of the Bureau of Finance of the Department of Posts in Cuba, Neely was tried and convicted.

That the government is determined to recover this money if possible, is shown by the activity of Edward K. Jones, who was appointed special assistant United States Attorney-General to try the case.

Mr. Jones had begun a preliminary inquiry to assemble the witnesses for the government, and will probably make application next week in the United States Circuit Court to have a day set for the necessary witnesses to appear, as many have to be brought from Cuba and different parts of the country.

President Roosevelt is particularly interested in the prosecution of the case by reason of the fact that McKinley's efforts to have restitution made of the money embezzled.

This will be the second attempt the government has made to recover the money, the first trial resulting in a disagreement of the jury. Mr. Neely was appointed specially to try this case, because it was through his efforts that Neely, after vigorous opposition, was sent to Cuba for this country, and convicted in a criminal action. Neely was afterward released under the amnesty act.

LOST FIFTEEN HATS ON TRIP.
(BY DIRECT WIRE TO THE TIMES.)
NEW LONDON (CL) Sept. 25.—[Exclusive Dispatch.] Fifteen hats and \$1 in money is the total cost of a transcontinental trip, with many side tours, just completed by John E. Watrous, 18 years old, of New London, who spent four months on a trip from Los Angeles to Connecticut.

SITUATION IS ACUTE IN CUBAN AFFAIRS.

Taft Diplomatically Unable to Bring Warring Factions Closer Together.

War Secretary Disgusted With Palma People's Stubbornness—Says Elections Were "Rotten"—Sends a Letter to Liberals in Interest of Peace—The President Cables from Oyster Bay—Two Battleships Go South.

(BY DIRECT WIRE TO THE TIMES.)

PROVINCETOWN (Mass.) Sept. 25.—The battleships Indiana and Kentucky of the North Atlantic fleet received orders from the Navy Department at Washington today to proceed to Cuba. The battleships will sail at 6 o'clock tomorrow morning. In the meantime, every marine in the fleet who can be spared from his vessel will be taken on board the two ships.

Mendez Capote has been directed to advise Secretary Taft and Mr. Bacon that the Moderates refuse the proffered terms.

The President has cabled to President Palma appealing to the latter's patriotism to accept the terms suggested by Messrs. Taft and Bacon as being the only conditions under which calm and peace can be restored.

A letter was sent by Messrs. Taft and Bacon to President Palma and the members of the Cabinet today, lengthy and carefully and diplomatically worded, with the intention of securing the Cuban President's cooperation in a settlement on the terms suggested, through appealing to his patriotism. Besides setting forth terms of the proposed agreement, the commissioners expressed the warmest appreciation of President Palma's well-known life ambition that Cuba continue an independent republic, and appealed to him to do all possible to aid the peace commissioners in carrying out the task set them by President Roosevelt.

HAVANA EXPECTS INTERVENTION.

(BY THE ASSOCIATED PRESS—P.M.)
HAVANA, Sept. 25.—It is declared on very high authority that American intervention in Cuba is certain. Furthermore, it is expected that the proclamation of intervention will be issued from Oyster Bay.

(BY THE ASSOCIATED PRESS—P.M.)
HAVANA, Sept. 25.—All the members of the Cabinet and the heads of departments have presented their resignations to President Palma. He has accepted them, but the officers will retain their positions until the new government is organized.

Senor O'Farrell, Secretary of State and Justice, tonight said that there would be a government by commission, appointed by the American government. He mentioned Senor Barriero, Chief Justice of the Supreme Court and Gen. Mario Menocal as possible commissioners.

WASHINGTON, Sept. 25.—[Exclusive Dispatch.] Official Washington is alarmed tonight over the conditions in Cuba for the first time since the recent uprising was reported to this government.

In the first place, it was thought that the Cuban government and the revolutionists would get together and arrive at some agreement which would prevent any serious difficulty. It is quite apparent now that neither side attempted, to any extent, to bring about such an agreement.

Then when Secretary Taft and acting Assistant Secretary of State Bacon and the United States ships were sent to Cuba, it was thought that their presence there and the common-sense talk of Secretary Taft to the leaders would have the desired effect; that

concessions would be made on the part of the Palma government to the revolutionists which would satisfy them.

The diplomatic intervention of Secretary Taft has proven to be a failure. Not that Secretary Taft was a failure, but the regular Palma government people were so stubborn that he decided, after exhausting all inducements, that it was useless further to attempt to bring the two factions together.

He realizes that American and many other interests may be seriously jeopardized should the present condition continue or grow worse.

GOVERNMENT DISGUSTED.

There is no doubt but that the President, Secretary Taft, and Assistant Secretary Bacon have be-

come very impatient. In fact, they almost are disgusted with the Palma people. It is understood that Secretary Taft informed the President that it is absolutely useless for him to make further endeavor to convince the Palma people that they, to a great extent, have been in the wrong and should in some sort of diplomatic way reason with the leaders of the revolution.

NOT ANNEXATION.

The flighty people here tonight insist that the President's decision to send half a dozen more ships, 1500 marines and 2000 bluejackets to different Cuban ports means annexation. The officials of both the War and State Departments do not agree with them. They insist that it is a further endeavor on the part of this government to bring about peace, a last step; and also to be on the safe side in protecting our interests, and, if necessary, make arrangements for the landing of an army of occupation, following which would be the establishing of a protectorate over the island. This in no sense would mean annexation. It would simply be carrying out the provisions of the Platt amendment.

STEAM YACHTS FOR CUBA.

WILL MAKE FOUR WARSHIPS.
(BY DIRECT WIRE TO THE TIMES.)
NEW YORK, Sept. 25.—[Exclusive Dispatch.] Four steam yachts have been purchased in this city by the Cuban government for conversion into warships. The vessels, which will be taken to the island at once and mounted with guns, are the Anita, the Alleen, the Candida and the Peerless.

They were purchased from George B. Wilson of Philadelphia, Edwin Gould, John L. B. Moth and Charles W. Harkness respectively.

All four vessels are of late patterns, fitted with triple-expansion engines and capable of maintaining a high speed. The largest vessel of the four is the Anita.

WEATHERBOUND AT TAMPA.

GEN. FUNSTON GETS A TARDY START FOR HAVANA.

Active Preparations Made at Key West to Get All Marines in Readiness for Transportation—Capt McCreary to Go as an Escort to the Commanding Officer.

(BY DIRECT WIRE TO THE TIMES.)
KEY WEST (Fla.) Sept. 25.—[Exclusive Dispatch.] The steam yacht Alleen, recently purchased by the Cuban government for the coast defense, arrived here today from New York en route to Havana. The captain reports that he encountered heavy weather since leaving Charleston.

He will remain here until the weather moderates in the gulf before proceeding to his destination. The approach of a West Indian storm which has caused high winds and seas in this vicinity during the last two days passed to the westward of this station today and will strike the Florida coast tonight. The mail steamer Miami, which started for the mainland this morning, was compelled to return to this port on account of the weather in the gulf.

FUNSTON WEATHERBOUND.

The steamer Olivette, with Gen. Funston aboard, is weatherbound. She was prevented from sailing from Tampa until 10 o'clock today. She cannot arrive here until tomorrow.

NEGROES IN JAIL.

Hundreds Arrested Riots Prevail.

Blacks' Settlement Attacked Battle Results in Several Deaths.

Two Barricaded in House Are Shot Down by Officers, After Hard Fight.

Three Hundred Deputized The Colored Element Is Well Armed.

(BY THE ASSOCIATED PRESS—P.M.)

ATLANTA, Sept. 25.—This, the third day of Atlanta's race war, passed without serious disturbances. Rumors by the hundreds have been brought to the attention of the authorities but have not been verified. The papers here have united in an agreement only to print established facts, to issue no more extras or appeals on the riot and the agreement is being lived up to.

Following the arrest of 257 negroes at Brownsville and Clark University today, and the detention of about 15 of these in the county jail, the feeling prevailed that at least peace has been restored by a strong show of authority. Almost simultaneously two negroes were killed in another and a different part of the city by three police men, who had been sent to stop the from shooting.

The main events during the day were the ordering into the city of 40 companies of the State Militia from outside points (Gov. Terrell saying that order was given as a matter of precaution rather than from any present necessity), and the gathering of large numbers of professional men to call for vigorous action by the city executives regarding negro resorts and saloons.

The saloons have been closed all day and will be until further notice. There is an increasing scarcity of negro factories, stores, in the postoffice at telegraph offices. Hundreds of Atlanta homes are without their regular coal and ice deliveries are conspicuous in their rarity.

DEPARTMENT INVESTIGATES.

PRICE MAY BE DISMISSED.
(BY THE ASSOCIATED PRESS—P.M.)
WASHINGTON, Sept. 25.—The Postoffice Department has taken cognizance of the case of J. L. Price, a negro in charge of the station at Son Atlanta, who, it is reported, has been arrested charged with supplying ammunition to the blacks.

An investigation is now under way and it is true, if as alleged that Price has been taken into custody on the grounds stated and is convicted he will be dismissed from the service of the government.

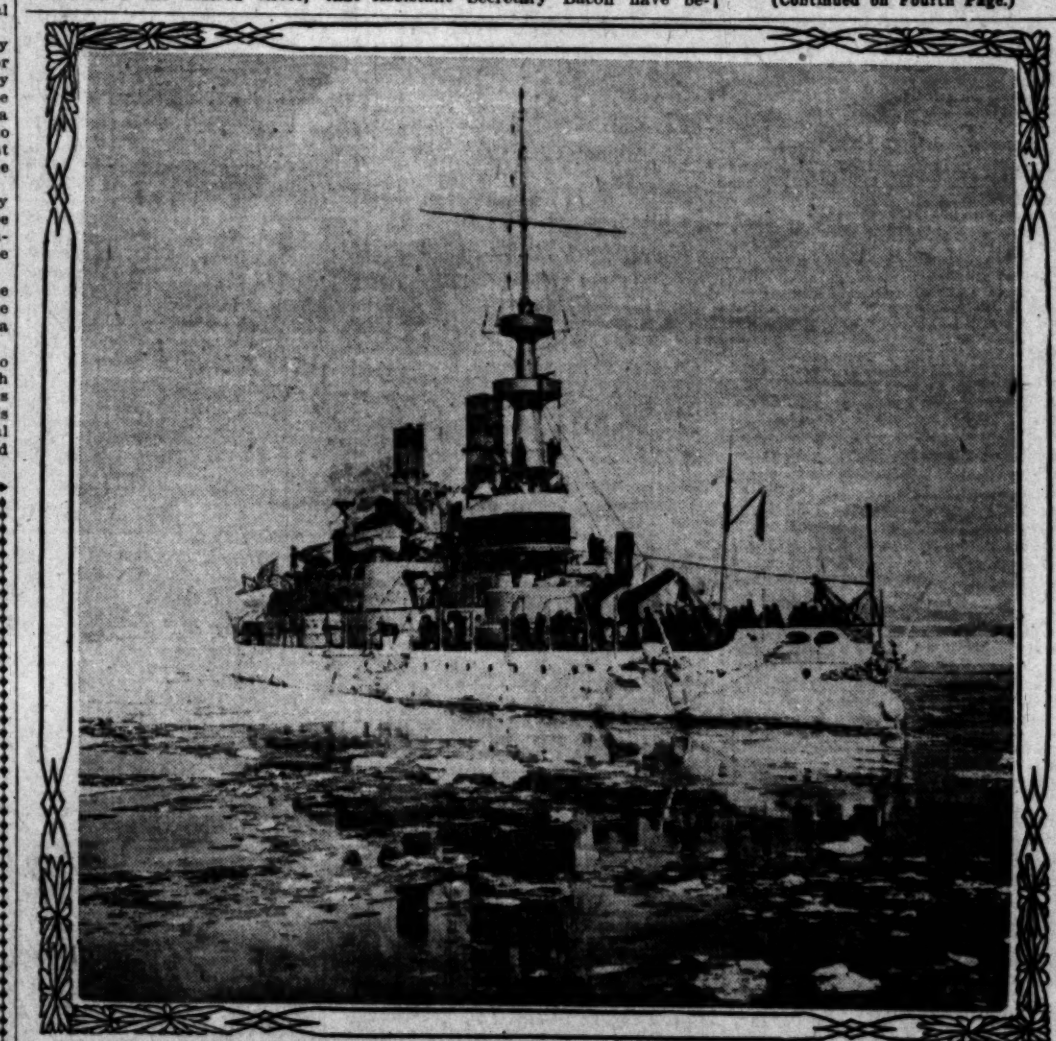

BAILEY WILL REPLY.

Said He Will Meet Charges by Claiming Right to Work at His Profession.

(BY DIRECT WIRE TO THE TIMES.)
FORT WORTH (Tex.) Sept. 25.—[Exclusive Dispatch.] Senator Joseph Weldon Bailey spent last night in the city closeted with some close friends going to Dallas this morning. When at Dallas have been going over a statement to the people of Texas carefully, and it may be given out tonight. From what can be learned, it is stated that he is conservative, Bailey contending he has right to practice his profession, and claiming his employment with the Waters-Pierce Company was ethical. Bailey has received a letter from Pierce since his return to Texas, in which Pierce acknowledges that he told Bailey at the time the company was readmitted to Texas that it was an independent concern. Bailey gives Railroad Commissioner Colquitt credit for being behind the fight against him.

FIND TUNNEL OF SMUGGLERS.

(BY DIRECT WIRE TO THE TIMES.)
BOSTON, Sept. 25.—[Exclusive Dispatch.] Workmen engaged in constructing the new building on Commercial street have uncovered a tunnel beneath the sidewalk which was used by smugglers in 1790. It is remarkable for its great size and skillful masonry construction, and was used by Capt. Gruchy, the famous French adventurer and smuggler, who made so much money that he bought a big warehouse, a distillery and Sir William Phipps' mansion with his profits. He suddenly disappeared one day and it is said was threatened with exposure and imprisonment.

NOT BLUFFED OFF TICKET.

Republican Candidates Stay
on Independent List.

Luther Brown's Order Does
Not Bother Them.

Blunder of Railroad Bosses
Closed Incident.

Republican candidates are still meeting on the independent ticket, the fact being that the order of Luther Brown, J. W. McKinley and others, whose business it is to grow on signal, failed to scare them off.

Brown had given to the threatened candidate until yesterday noon to think it over. But when he went around at the meridian, the sun was observed to touch the zenith; but that was about all that happened. Only a bland and smiling clerk met Brown. None of the candidates came in answer to the summons.

Instead a genial letter had been filed with Bradner W. Lee, chairman of the Central Committee, notifying him that the candidates refused to withdraw their names from the endorsement of the independents.

With that the whole incident passes as a political blunder. The usually astute S. P. managers got off wrong for this once.

Bradner W. Lee, who, as chairman of the County Central Committee, called the meeting at which the row took place, but who did nothing whatever to do with the attempt of the S. P. to bluff the Republican candidates off the ticket, made the following official statement last night:

"It is to be regretted that so much was ever said about this incident in the papers.

There was no demand on the part of the County Central Committee that these candidates withdraw from the Democratic ticket. It is not so much the endorsement by the independent movement as the nomination by the Democratic convention that we thought ought to be called to the attention of the candidates.

The chairman of the Democratic convention stated from the platform at the convention that the candidates of the Venice convention were Democratic nominees simply as a means of putting an entering wedge into the Republican party.

"We did not demand that they withdraw. Well, yes, it may be that in the expression of their opinions, some of the members of the committee were somewhat emphatic; so did some of the candidates. What passed there is a confidential matter. We agreed that it should not be told outside. If it got out it was through the violation of some one's honor.

"What meeting adjourned it was with the understanding that the candidates should have a meeting, and decide the matter among themselves. We left it to them to decide.

"I am informed that they had a meeting at the Courthouse; they wanted a letter saying that they had decided not to withdraw from the endorsement of the independents. That is the end of it. There is no feeling as far as the committee is concerned. There never was.

"It is true that the candidates who are not endorsing mean to have themselves nominated by the committee to place themselves in the independent column on the ballot like the others. I know nothing of it. The committee certainly has no such plan in view.

"We feel that the Democrats are making a cat's paw of these endorsed candidates—that is all.

In addition to the brow-beating by the alarmed S. P. politicians, tremendous pressure has been put to bear on some of the endorsed candidates to bear some of the unendorsed candidates to bring about a withdrawal from the independent ticket. A great deal of bitter feeling exists between the endorsed and unendorsed.

NEW HAMPSHIRE NOMINEE.
DEMOCRATS PICK JAMESON.
[BY DIRECT WIRE TO THE TIMES.]
CONCORD (N. H.), Sept. 25.—[Exclusive Dispatch.] Nathan C. Jameson, of Antrim was today nominated for Governor of New Hampshire by the Democratic State convention. The nomination was by acclamation, after William E. Harris, Mayor of Portsmouth, champion of the younger element of the party, had announced that he had pledged himself not to be a candidate for the

NOMINATE HUGHES.**

[BY THE ASSOCIATED PRESS.—P.M.]
SARATOGA (N. Y.), Sept. 25.—[Exclusive Dispatch.] Charles E. Hughes's nomination for Governor on the first ballot, in the Republican State Convention today, is indicated.

Ex-Gov. E. B. Odell, chairman of the State Committee, opened the convention to order at 12:20 o'clock.

After some preliminary business, the Committee on Temporary Organization submitted its report, naming Representative Michael E. Driscoll of Syracuse for temporary chairman. (The report was adopted and Mr. Driscoll took the chair.)

Mr. Driscoll's speech was frequently interrupted by applause.

His mention of President Roosevelt brought the convention to its feet shouting, cheering and waving hats and handkerchiefs.

The cheers were dying out when the New York county clerk stepped to its feet and wound up the applause with three ringing cheers.

When Mr. Driscoll mentioned the name of Gov. Higgins, the convention cheered heartily, but when he mentioned the name of William R. Hearst, his started. The speaker demanded to know what such man as Mr. Hearst could have in common with the laboring man, and a young man interrupted, exclaiming: "He sacrificed all."

The interruption was not generally heard but a little later he cried out: "Sit down; sit him out," delegates all over the hall began to shout.

A policeman came forward and the young man was escorted from the hall. Representative Driscoll, even a temporary chairman was an enthusiastic tribute to the Republican party and its national and State policies and leaders. He asserted that the Democrats themselves, as the years roll by, are "enlightened by the logic of events and admit the wisdom of nearly all the important acts of their opponents."

nomination, and would decline the nomination if made.

Mr. Jameson is 60 years old, a prominent business man, and has been a member of the House of Representatives and the State Senate.

BATTLE OF BALLOTS.
BIRMINGHAM (Ala.) Sept. 25.—[Exclusive Dispatch.] A big battle of ballots is on in this State. Republican and Democrats under law are obliged to vote on regular ballots, the same as election day for candidates for the various offices.

There are many factional fights over the Democratic nomination, as well as for State convention delegates, who will nominate officers. A new clause in the State election law, requiring the identification of voters by their height, etc., causes much trouble, owing to many errors in listing.

POLITICAL BRIEFS.
No State Ticket.
BIRMINGHAM (Ala.) Sept. 25.—The Republican State Executive Committee, at a meeting here today, decided not to nominate a State ticket this year.

Cannon in Kansas City.
KANSAS CITY, Sept. 25.—Speaker Joseph G. Cannon and Representative James E. Watson of Indianapolis spent today in Kansas City. They arrived on the morning train from Sedalia, where yesterday they delivered addresses before the Missouri Congressional campaign.

The day's programme included a reception, a luncheon, an automobile ride about the city, and speeches tonight at Convention Hall.

Declare Bryan Leads.
HONOLULU, Sept. 24, 10:55 p.m.—The Democratic Territorial Convention in its platform declares that W. J. Bryan is the acknowledged leader of the party. After expressing approval of the Roosevelt administration, the convention endorsed Governor R. Carter, the incumbent, for Governor.

Madison Conventions.
MADISON (Wis.) Sept. 25.—The platform convention of the primary election nominees of the Republican party met here today. A careful canvass of the situation about that William D. Connor, nominee for Lieutenant-Governor, will be the man selected for chairman of the State Central Committee, despite the La Follette adherents. The platform promulgated at the convention in Milwaukee in June was formally adopted, including the plank favoring the nomination of William J. Bryan for President in 1908.

Democrats, Prohibitionists and Social Labor party also met today. The platforms previously promulgated were formally endorsed. The Democrats were called to order by State Chairman H. H. Hanson.

Bryan in Memphis.
MEMPHIS, Sept. 25.—W. J. Bryan, accompanied by Mrs. Bryan, arrived here early today from New Orleans. He was greeted by a large crowd of people, many of whom were members of the committee.

"We did not demand that they withdraw. Well, yes, it may be that in the expression of their opinions, some of the members of the committee were somewhat emphatic; so did some of the candidates. What passed there is a confidential matter. We agreed that it should not be told outside. If it got out it was through the violation of some one's honor.

HUSBAND'S CAREER.
[BY DIRECT WIRE TO THE TIMES.]
WORCESTER (Mass.) Sept. 25.—[Exclusive Dispatch.] Frederick B. Whitin is about 27 years of age, and seven years ago married the daughter of J. Malcolm Burbank of Whitinsville. He is now assistant superintendent of the Crompton and Knowles

Works in Worcester. They had one child, a girl, Thelma, now one year old. Mr. Whitin left Whitinsville, and has since traveled abroad. While it is present that he is believed to be in the United States, his first wife has not heard of it, and has been trying to locate him.

Frederick B. Whitin, the defendant in the divorce suit brought by his wife, was the son of the late George Whitin, a millionaire of Whitinsville and North Bridge, two big machine manufacturing centers.

He also declared that the majority of Democrats secretly if not openly admit "the general necessity of the defeat of Bryan in 1908."

"They also admit," he said, "our wisdom in electing to the same exalted office that tireless worker and finished scholar, dauntless protector of the people's rights and incorruptible executive, Theodore Roosevelt."

He dwelt at some length upon the recent acts of Congress, for the achievements and faults of which he said the Republican party must bear the credit and accept the responsibility since all the great measures could have been passed without assistance from the Democratic side "and the fact that they approved and supported them indicates on their part an unusual degree of good sense and patriotism."

He touched upon the punishment of grafters, bringing to book powerful offenders, the situation in Cuba and in the Philippines, and a high opinion of Secretary Taft.

An indication of the doubt in which the situation remains is the fact that no speakers have yet been selected for candidates in nomination, but as matters stood this evening it would seem that the nomination for Governor will still be between Bruce and Hughes.

There were repeated revivals during the day of the talk about Frank S. Black, and several attempts were made to arrange a program to secure his nomination. Black from the first discouraged the use of his name, and made his inclination so positive that few of the up-State leaders believe he is really a possibility.

ELECTIONS WERE ROTTEN.
TAFT COMPLAINS OF PALMA.
[BY THE ASSOCIATED PRESS.—A.M.]
HAVANA, Sept. 25.—1:30 p.m.—Secretary Taft and Assistant Secretary of State Bacon informed the Associated Press this afternoon that they were thoroughly disgusted with the petty methods of the government leaders here, and the American commissioners admitted that they had practically abandoned hope of bringing peace from the turmoil unless by the use of force.

"The government officials, instead of cooperating with the United States to save the republic, have resorted to every kind of obstruction with the object of continuing their control of the administration," President Palma and his advisers have rejected terms of peace which were honorable to them, though in the form of a compromise with their opponents.

"We are still striving to arrange a settlement, and we trust the American people will give us credit for doing everything possible to accomplish a settlement without resorting to force."

DISGUSTING SITUATION.
"I cannot say that we are hopeful, for I have never known a more disgusting situation. Investigation convinces us that the elections were thoroughly rotten. We do not want to intervene, but the conditions as they may necessitate it."

"Our reports show that the insurgent commanders have lost control of their forces, which are now lawless bands that any moment may loot and burn. The situation seems to demand the use of force."

ON PALMA'S BEHALF.
Gen. Freyre Andrade, Speaker of the lower house, in conversation with a correspondent of the Associated Press today, made the following statement on behalf of the government officials: "If the Americans wish to take our government and give it to the rebels, they may do so, but not without our consent. We shall never consent to the holding of new elections. It would not only be great injustice, but if the rebels won, Cuba would have another revolution on our hands."

CUBAN REGIME REJECTS.
Continuing, the General said that Vice-President Mendes Capote had gone to confer with Secretary Taft and to inform the latter that the Cuban government positively rejected the Liberal's proposition, laid before President Palma by Mr. Taft and Assistant Secretary of State Bacon last night.

President Palma would resign, said Andrade, if the step was suggested by the American officials, but he would never be a party to holding new elections. Furthermore, no members of the Moderate party would go to the polls if a new election is held in January, as contemplated.

ONE WAY OUT.
The General was then asked what would be his solution of the problem and he replied, distinctly and impressively:

"If we see only one satisfactory way out of it—for the United States to take control of Cuba for one, or two, or possibly four years. The right kind of government here cannot survive now without such control. There must be a reconstruction period, after the civil war. Yielding to the rebels now cannot bring contentment and reliability, and would only antagonize all the better elements, which, as it is well known, side with the Moderates."

THINK DEMANDS UNJUST.
Senator Dolz said: "We think the demands of the Liberals unjust, and that the American commissioners are showing partiality in accepting them."

T. Manuel Despalma, the administrator of customs, said: "The Liberal terms are impossible. The only way is to fight it out. The government, with 10,000 disciplined troops, surely will be victorious."

Señor Despalma also complained of the alleged partiality of the American commissioners for the Liberals, which view is generally held by the Moderates and the government officials.

ISLE OF PINES OUTRAGES.
CUBANS MOLEST AMERICANS.
[BY DIRECT WIRE TO THE TIMES.]
NEW ORLEANS, Sept. 25.—[Exclusive Dispatch.] The first authentic details of the searching of the houses of Americans by Cuban soldiers on the Isle of Pines for arms and ammunition, during which many American women were subjected to considerable humiliation, were furnished by G. W. Munson of Toledo, O., who arrived here today from Havana.

According to Munson, the soldiers, despite the protests of the Americans, forcibly entered the residences and searched and carried away all the guns, rifles, revolvers and ammunition they could find.

WELLMAN IN PARIS.
PARIS, Sept. 25.—[Exclusive Dispatch.] Walter Wellman, leader of the Cuban Chicago Record-Herald expedition, arrived here last evening from the North. He will remain here several weeks to superintend the reconstruction of his ship, which will contain important and new features.

YVETTE GUILBERT SAILS TODAY.
PARIS, Sept. 25.—[Exclusive Dispatch.] Mme. Yvette Guilbert sails tomorrow for New York on the Kaiser Wilhelm der Grosse from Cherbourg.

A government communication issued at Madrid last night admits that the present Carlist movement has assumed the dignity of a "real attempt at political insurrection," but declares it has miscarried.

TRANSFER OF TROOPS PRESSED FORWARD.

Events of the Day in Cuba Hastened
Plans Long in Preparation—Fifteen
Hundred More Marines Ordered
Out.—Bids for Horses Opened.

(BY THE ASSOCIATED PRESS.—P.M.)

OSTER BAY, Sept. 25.—Plans for the transfer of troops from the United States to Cuba in the event of the failure of Secretary Taft's mission to bring about a peaceful solution of the trouble in the island republic have been completed.

The final step was taken today, according to an announcement made here tonight, when the transport Sumner, now lying at the New York navy yard, was put in commission. The ship is in readiness for the immediate embarkation of troops. Negotiations are already under way for the acquisition of merchant steamers to be used as transports.

That the events of today, as told in the press dispatches, have hastened plans which have been long in preparation seems apparent. Additional warships will reach Cuba within a few days, and will be ready to land marines, if necessary, long before the regular troops now awaiting orders, and to be moved. Should armed intervention come, these forces will undoubtedly form the vanguard of the invading army.

FIFTEEN HUNDRED MARINES.
[BY THE ASSOCIATED PRESS.—P.M.]
WASHINGTON, Sept. 25.—Fifteen hundred more American marines were ordered to Cuba today by the Navy Department. The transfer of the marines from the Atlantic fleet will be on the battleships Indiana and Kentucky from Provincetown, Mass., eight or nine hundred marines will sail Thursday from Boston, Norfolk and Philadelphia, and the remainder will probably leave New Orleans for Havana on a Morgan line steamer scheduled to leave there Sunday.

Orders were first issued for 1000 marines from the "various stations along the Atlantic Coast to proceed to Cuba, but following dispatches from Secretary Taft, indicating that he has little hope of an amicable settlement of the troubles in Cuba, an additional 500 marines were ordered from the North Atlantic fleet to be instructed to prepare for Cuban service.

In addition to the marines, 2000 more bluejeans will be sent to Cuba. As there are now 1200 marines in Cuba, and over 3000 bluejeans when the vessels arrive in Havana, the United States will be ready to land a force of more than 7000 on Cuban soil.

The American warships which will sail on Thursday will be the cruiser Brooklyn, now at League Island navy yard, and the cruiser Albatross, now at the Norfolk navy yard, and the converted cruiser Prairie, which is at Boston. The manager of the road, Port Royal, S. C., Annapolis, Washington, Norfolk and Charleston, will be in charge of the transfer of the marines to Cuba.

The cruiser Columbia, on which Secretary Root is returning to this country from Colombia, will be in the company of the other ships. The transfer of the troops not later than Tuesday next.

ARMY SHARES ACTIVITY.
So far the preparations for trouble which may come about in Cuba have been largely carried on by the navy, but today more than any previous day the army shared the activity of the Navy Department, and the military secretary, Maj.-Gen. F. C. Ainsworth, chief of staff, Brig.-Gen. J. Franklin Bell, were in conference much of the day, and summoned many other members of the General Staff to the War Department. were nine points of difference between the Liberals and the American commissioners, but he regarded these as being easily adjusted.

This morning Secretary Taft revised the terms decided upon in order to meet the desires of the insurgents. Señor Zayas took a draft of them to the President to be considered by the whole committee. This afternoon Senator Zayas informed the Associated Press that there were two main points upon which the Liberals must insist, one of them being the practical enforcement of the dissolution of the armed forces, and the other general amnesty for all participants in the revolution.

RECEIVED MENDEZ CAPOTE.
On reaching the American legation today, Secretary Taft and Assistant Secretary of State Bacon immediately received Vice-President Mendes Capote, who remained in conference with the American peace commissioners for half an hour. No statement was given out regarding the nature of the conference.

After leaving the palace, last night the American commissioners returned to the legation and worked until 3 o'clock this morning. They drafted a letter to President Palma setting forth the details of the proposed peace terms. This was delivered at the palace this morning.

DID NOT REVISIT PALMA.
The American commissioners have decided not to keep their engagement to revisit President Palma because of his attitude today.

Secretary Taft added that the terms agreed upon remain Palma as President, but he had listened to the ban counsel of his cabinet ministers. The situation here has been called to President Roosevelt.

DON'T LIKE HUMILIATION.
Some members of the government are contented to talk on the subject unqualifiedly rejected the idea of being placed in the humiliating position of accepting the terms of peace. The government has repeatedly declared he would resign rather than submit. So the government's present alternatives are acceptance of the terms of peace, or resignation. As all of the government officials prefer American intervention to government by the present rebels, the natural public expectation is that Palma will resign.

GUARD FOR RAILROAD.
Secretary Taft has ordered the commander of the United States gunboat Marietta to dispatch thirty men to the province of Santa Clara, to guard the shops of the Cuban Central Railroad, a British concern, which contain a million dollars' worth of material. The manager of the road declares that it already has been damaged to the extent of \$400,000. Upon his informing the British chargé of affairs, the latter has promised that the United States would do all in its power to protect the road.

**ON THE VERGE OF
INTERVENTION.**
CUBAN MODERATES BENT UPON
FORCING UNCLE SAM.

They Will Abandon Everything Despite the Fact That Such Course Is Regarded by the Liberals and Taft as Unwarranted and Dishonorable.

[BY THE ASSOCIATED PRESS.—P.M.]
HAVANA, Sept. 25.—The Cuban republic tonight stands on the verge of a second period of American intervention. The Moderate Party, which, six weeks ago, was in absolute control of the government in the island, national, provincial and municipal, tonight determined to abdicate everything and compel the United States to intervene.

In fact, every government official, from President Palma down, is sincerely allied to force such intervention, rather than yield to the demands of the Liberal party and the terms offered by the Liberal party and those in arms against the government.

REGARDED AS DISHONORABLE.
The Liberal leaders characterize the conduct of the government as treason to the republic, while Secretary of War Taft regards it as an unwarranted and dishonorable attempt to force the hand of the United States into intervention. This, it has been stated, is precisely what President Roosevelt has been waiting for.

It is still just barely possible that President Roosevelt, through Secretary Taft and Assistant Secretary of State Bacon, may yet arrange to establish the Liberals in control of the Cuban government, but this is regarded as only the remotest sort of possibility. With either party installed in power, there would still remain a condition of deplorable dissatisfaction and unrest, and tonight there appears nothing whatever to promise relief save full control by the United States.

CONTROL OF ARMY.
Acting Secretary of the Interior Montalvo declared, this evening, that he would never turn over the army to the Liberals under any circumstances, but all government officials unite in saying that if the rebels in the field or any portion of them resist American troops, the Cuban army would cooperate with the United States in every way possible. The real feeling is that the adversaries of the government will not win, though the government loses, combined with the satisfaction that the United States will be obliged to take over Cuba, indefinitely, and possibly forever.

PALMA'S SPECIAL SESSION.
President Palma has called a special session of Congress for Friday, when he will present the resignation of himself and Vice-President Mendes Capote. The Moderates, however, will not attend that session of Congress, for they will present the resignation of himself and Vice-President Mendes Capote. SHOT DOWN AS HE IS DRIVING.

Interpreter Murdered in Cold Blood.

Man Commits Crime and Escapes on Bicycle.

Police Baffled by Peculiar Case—"Black Hand"?

While driving a wagon along North Main street, yesterday noon, Joseph Cuccia, an Italian court interpreter, was shot and almost instantly killed by a young man who rode up behind the wagon on a bicycle. Cuccia, residing at No. 418 South Avenue 18, and had a wife and three children. Four shots were fired by the murderer. One took effect, the bullet entering the back and passing down to the heart. As the shots were fired, the bicycle took flight and down the street. Cuccia, mortally wounded, remained in the wagon until the team reached the Main-street

JOSEPH CUCCIA, who was murdered by an unknown man on North Main street yesterday, was a well-known interpreter.

Two nearly two blocks from where the shooting occurred. At this point a man was thrown to the ground. The man who was thrown to the ground was the murderer. He was a young man, about 25 years of age, with dark hair and a mustache. He was wearing a dark suit and a light-colored shirt. He was riding a bicycle and was holding a revolver in his right hand. He fired four shots at Cuccia, who was sitting in the wagon. One of the shots hit Cuccia in the back and passed down to his heart. Cuccia was killed almost instantly. The murderer then rode away on his bicycle, leaving the wagon and the body of Cuccia in the street. The police were baffled by the case, as they had no leads to follow. They were looking for a man who was described as being about 25 years of age, with dark hair and a mustache, wearing a dark suit and a light-colored shirt. They were also looking for a man who was riding a bicycle and was holding a revolver. The police were looking for a man who was described as being a "Black Hand" man.

USES DIRK ON CAGE KEEPER.

African Pygmy, Confined With Monkeys, Resents Being Drenched With Hoss.

BY THE ASSOCIATED PRESS.—A.M.

NEW YORK, Sept. 25.—O. A. Benga, the African pygmy who has been exhibited at the New York Zoological gardens for some time past, tried to kill a keeper yesterday with a dirk. He fought furiously before he was disarmed. Benga's keeper was excited because the keeper in a spirit of fun turned a hose on him. Benga has been exhibited in the monkey cage. He has attracted wide attention because of the protests of several negro societies against the exhibition.

GYPSY HAG IS BEHIND BARS.

ACCUSED OF ATTEMPT TO SMOTHER BABY.

When Searched at Station Over Four Hundred Dollars is Found on Her Person—Mother of Child Also in Custody—Little One Found Almost Suffocated Under Bedding.

Gypsies who smother little babies and steal other people's money are seldom caught. Lizzie Balado, a wicked-looking hag, was almost taken in the act of smothering a little two-month-old baby girl belonging to Mary Mitchell, a younger woman of the tribe. Patrolman M. R. Kincaid placed both women under arrest.

When searched at the station the Mitchell woman had \$450 in gold on her person. Some of the money was in English sovereigns. The Balado woman accused the Mitchell woman of stealing the money, and said she had taken the baby and hidden it, to compel her companion to return the cash. When the police found the infant, it was lying under a pile of bedclothes in the Balado woman's tent. Several heavy comforters had been thrown over the baby, which would have been dead in a few minutes had not the officer arrived. He was summoned to the camp by the baby's mother, who cried piteously and asked for her child.

AGED WIFE DIES. SUSPECT YOUNG HUSBAND. (BY THE ASSOCIATED PRESS.—A.M.) CHICAGO, Sept. 25.—The dead body of Mrs. Mary Monceur, aged 63 years, was found lying on a bed in her home at No. 149 W. 14th street. An examination showed that life had been extinct for some time. About the throat finger marks were found, and the police think the woman was choked. On a small table alongside the bed were several small white tablets, which will be sent to the chemist to be analyzed. The husband, John Monceur, was placed under arrest pending further investigation.

TRAIN WRECKER FAILS. ENGINEER SAW OBSTRUCTION. (BY THE ASSOCIATED PRESS.—P.M.) PHOENIX, Sept. 25.—An attempt was made to wreck train No. 299 of the Southern Pacific Sanger branch near Minnewawa this morning. A huge wedge with ties was made, but the obstruction was seen by Engineer Elmer, who was just in time to stop the train. The Southern Pacific has offered a reward of \$50 for the arrest of the person or persons who were responsible for the wreck.

NOT THE SAME FAMILY. Harry Palmer, killed by a pulley of an electric motor recently at the Axelrod Machine Works at No. 149 San Fernando street, was not employed by the Turf-Palmer Electrical Works. Palmer of the East Third-street concern, but it is now learned that he was not connected with the plant, and is no relation to the proprietor of the electric concern.

CONTROL OF SHANNON COPPER. BOSTON, Sept. 25.—[Exclusive Dispatch.] It is stated that the American Finance Party in the Shannon Copper Company will be able to secure control of the property without a contest at the annual meeting, the present management giving the new interests a majority of the directors, if they decide to sell. Shannon is apparently at the threshold of a new career, and under the advice of Dr. Ricketts, a saving of nearly a cent a pound in copper costs and other changes is under way enabling it to increase the output by 50 per cent.

FINNS BLOW UP BARRACKS. HELSINGFORS (Finland) Sept. 25.—An unsuccessful attempt was made at 1 o'clock this morning to blow up the police reserve barracks here. One reserve was slightly injured and windows of the barracks and of the adjacent guard barracks and other buildings were shattered. There is no clew to the perpetrators.

Los Angeles, 5; Oakland, 1.
Circuses are good enough for elephants, peanut men and fat women who try to get real nervous every time they have to climb up above the fifth row, but all these look cheap beside a real ball game, after all.
Over 800 fans thought so yesterday when they turned out to welcome the Looos home in the first game of the final six weeks at home that ends the present season, and they were there with the glad hand for all the old boys who have kept us in the race, every one of the locals being applauded when he stepped to the plate the first time.
The game yesterday, while not starting in any way, was well worth the money, for the fans saw Kit Brashear at third base again after his absence with the outlaws, and they also had at look at the new catcher, Buckley, that Dillon picked up in San Francisco, and a new left fielder named Carlisle, who blew in from the Rock Island club of the Three I's, and was at once stuck into the game. Every one of these new ones made good, and, with the entire team awaiting the ball at the right time, it was easy money to win from the fellows sitting on the cellar door to keep Mike Fisher under it.

Brashear is glad to get back among the old folks once more, and declares he never will even think of the outlaws again. Of course, he had a good time and saw some new country, but it wasn't Los Angeles, and the fans were just as glad to see him at third base as he was to be there. Buckley is a new one, but makes a noise like a real ball player, and made a very good impression yesterday. Carlisle looks to be the goods, also, for he catches easily and gracefully, is quick

on his feet, and may be a fair hitter for all he knows. He had four outs and an assist and a single out of four times up.

Both Graham and Randolph pitched about alike, but the locals slammed Oscar pretty hard at times, getting no less than five two-bases swats in the first five innings. Brashear hit two of these, and yet couldn't make either one count, but Toman and Buckley slipped in two together and scored a run. Bernard made out off his in the third, and so it might be said that three doubles won the game. Randolph was hit copiously, but managed to keep the hits scattered, and would have had a shut-out but for his own weakness. Van Halten, Kruger and Heilmuller singled in succession in the opening of the fourth, and then Van Halten scored the only Oakland run on a passed ball, which was really a wild pitch for Buckley had his hands full trying to make Randolph get 'em over the plate or near it. He succeeded very well, but was certainly the busy kid all afternoon snaking bad ones.

The locals really had an easy time getting theirs, a pass, a single, a steal, a wild throw by Pat Hackett, and a long fly scoring two runs in the first inning, and after this the others rolled in. In the third Bernard doubled, advanced on Gochbauer's sacrifice, and scored on a fly, and Toman and Buckley worked in a run in the fourth with two doubles in a row. The last run resulted from Randolph's pass. Bernard's single, Gochbauer's second sacrifice and a fly.

There were no chances for circus plays for all that business was done across the street in the vacant lot. Nagle and Reidy umpired, for Bull Perrine did not show up because his mother is seriously ill in Oakland.

Game Today.

This will be another ladies' day at the ball grounds, and all the fair fans will be admitted free to grounds and grand stand. Bergman and Reidy will probably be the pitchers, and it is more than possible that Jack McCar-

thy will umpire, pending information from President Bert as to whether Jack is eligible to act, having jumped the Western League.

Poly Elects Captain.

Andre Gifford, center on last year's team, was elected to captain the Polytechnic High School's football team during the coming season, yesterday afternoon. Gifford is a senior in the school, and was the logical candidate for the position as he has played for Poly several seasons and is one of the best men on the team this year. He is powerfully built for a high school boy, and while not exceptionally heavy for his position, will be able to give a good account of himself against a heavier opponent.

Polytechnic has been practicing for the past two days, and thirty men have appeared on the field to try for positions. Capt. Gifford expects that there will be twice that number out for the team by the time the season is fully launched.

Flynn Proposes Bet.

Jim Flynn has offered to wager \$500 with Tommy Burns on the proposition of a knockout. If either man is knocked out, he is to forfeit the other \$500. If neither is knocked out, the wager is off. Burns has not yet covered the bet, but it is expected that he will do so.

The statement that San Francisco is to have a fine new ball park for next year, comes rather late, for it should have been put in this year. It is just about as cheap to build a grand stand as it is to put up a lot of one-story shack business houses.

GILL MEAD IS
WANTED HERE.DIRECTORS OF LOS ANGELES
CLUB WANT TO SEE HIM.

Business of Local Organization Is Practically Tied Up at Present Awaiting His Return—Ex-Manager Is Doubtless in Ventura Belling Out Soreness That Bothered Him.

The Los Angeles baseball team is short a manager.

That is, Gill Mead has dropped out of sight.

No one has seen him for a week or ten days, and it was stated last night that even his own nieces and nephews don't know where he is.

It is supposed that Gill has gone back to the hot springs in Ventura county to be treated for the rheumatism that has been bothering him for several months, but he is very much wanted here now by the directors of the new Angel City Baseball Association, for Manager Berry said last night that none of the directors knew how the team stands in a financial way, and how many bills have or have not been paid.

It seems that only Gill knows of these matters, for he has not rendered a statement of his accounts or of the finances of the club to the new directors.

It is said the last time any of the directors saw him was a week or ten days ago at a meeting of the directors and that time he promised to bring a statement of the club's financial condition. The directors held a meeting yesterday to receive this promised report, but Mead did not show up with it, and the directors are thinking that he must have become lost in the mountains or had another runaway accident.

No one accuses Gill of anything wrong, but the directors are praying that he will show himself soon so they can learn just where they are at.

He is sore over the package that some one handed him in connection with the baseball business and has probably gone back to the wilds of Ventura county to forget some of the woes of a baseball manager's life. He asserts that President Bert of the league promised him \$1500 worth of stock in the new Angel City Club, but the services he had rendered but at the recent meeting he attended the new directors didn't see why they should make good any of Bert's promises and gently told Mead they would give him \$1500 worth of stock if Bert and Ewing would pay for it, which of course couldn't happen.

Later on that day Gill told the writer he would not work for the \$100 per month he was being paid and evidently left town that night or the next day for Ventura.

GREAT MARE FAILS.

(BY THE ASSOCIATED PRESS—P.M.)
CINCINNATI (O.) Sept. 24.—The fifth grand-circuit meeting opened here today with a good attendance.

Swed Marie, who broke her own and track record at Columbus last week, was the attraction of the day. Sweet Marie was driven by A. P. McDonald in her attempt to break the neck of a California mare was not equal to the occasion, however, and the best she could do was 2:04 1/2.

First heat in 2:04 1/2. Alfalfa, Scherhorn, Red Bird, Hal Chaffin, Princess Helen and Vesto Boy also started.

VETERAN SAM THOMPSON.

Grand Old Man of the Diamond Who May Be Tamed the Modern Rip Van Winkle.

The records of baseball chronicle no more unusual event than the return of old Sam Thompson into the game, after he remained off the diamond for a period of ten years. Sam quit the game at the age of 35, and it was believed that his days of usefulness were over, but recently, when the Detroit Club suffered from the loss of several

players through injury, he tendered his services, and did so well that he has been placed on the Detroit reserve list for next season.

The only thing that seemed different to Thompson in the game today, as compared with that of ten years ago, was the spit ball. That master of the saliva delivery, Harry Howell of St. Louis, had Sam completely mystified the first time the latter stepped to the plate, and the veteran struck out, but in subsequent contests he slashed out a few timely hits, one of which won a game for Detroit. Twenty years ago, in 1887, Thompson belonged to the famous Detroit champions, the hard-hitting team ever organized, thence he went to Philadelphia, and played there till he quit the game.

NUT BOY A CRACKER.

Easily Wins Grand Circuit Feature at Cincinnati from Good Field of Trotters.

CINCINNATI, Sept. 25.—The Ohio, for 2:12 trotters, purse \$5000, was the chief attraction at the Grand Circuit meeting at Oakley Park today.

Nut Boy, winner of the \$10,000 Charter Oak Stake, won the event in handy fashion.

The 2:15 class pacing was easily won by Ardelle, the favorite, in straight heats.

Red Bud won the first heat of the 2:04 pace in a drive by head.

From Texas Rooker, Alfalfa, the favorite, finishing fourth. In scoring for the first heat, Vesto Boy refused to start with the rest of the field, and after numerous trials was ordered withdrawn by the judges. Bets on the heat were declared off and ten minutes allowed for a new book.

Texas Rooker had no trouble winning the second heat by a length from Scherhorn.

First, the Ohio, 2:12 class, trotting, purse, \$5000, three heats: Nut Boy won the first and third heats and the race in 2:04 1/2, 2:08, and 2:09 1/2. Mack Mack, Dr. Frasse, Lake Queen, Iceland, Rompage, Bowditch, Charley T. and Ann Bird also started.

Second, 2:15 class, pacing, purse \$2000, three heats: Ardelle won three heats, 2:06 class, pacing, purse \$1000, 2:06 1/2 and 2:07 1/2. Capt. Derby, Bonnie Stewinay, Hall R. The Donna, Director Joe and Jennie Wrenn also started.

Third, 2:04 class, pacing, purse \$1000, three heats: Texas Rooker won the second and third heats and the race in 2:04 1/2, 2:08, and 2:09. Red Bud won the first heat in 2:04 1/2. Alfalfa, Scherhorn, Red Bird, Hal Chaffin, Princess Helen and Vesto Boy also started.

MANSLAUGHTER CHARGED.

Prize Fighter and Seconds With Club Officials Arrested at Portland, Me.

(BY THE ASSOCIATED PRESS—P.M.)
PORTLAND (Me.) Sept. 25.—Terry Martin of Philadelphia and the officials connected with the sparring exhibition at the auditorium last night, in the midst of which Jack McKenzie of Philadelphia died, gave bail today for their appearance in court tomorrow on the charge of manslaughter.

Physicians think that McKenzie died from the effects of a blow over the heart. A post-mortem examination and Coroner's inquest will be held tomorrow.

Just before the close of the fifth round, Martin delivered a hard blow over McKenzie's heart. McKenzie staggered back, but immediately recovered and returned two blows before the gong rang.

He went to his corner, and while his seconds were administering restoratives, suddenly became unconscious, and died just after being carried to the dressing-room.

Martin and his brother, who acted as his second, Steve Mahoney of Boston, McKenzie's manager; Jack Sheehan of Boston, the referee, and John Cauley, the manager of the contest, went to the police station immediately after McKenzie's death, and remained here at the action of County Attorney Eaton.

Martin was scheduled to fight Herman Miller of Baltimore, but the latter did not appear, and the management induced McKenzie to go into the ring in his place. McKenzie was in poor physical condition when he came into the ring, but seemed to be able to stand up under the heavy blows of his opponent until the fifth round, when the fatal blow was struck.

Money Is Posted for Fight in Los Angeles.

McCarry Negotiating With Crack Boxers.

Manager Toy Informs "The Times" of Match.

Chatter Neary of Milwaukee will meet Ed Herman of Chicago in a twenty-round bout before the Pacific Athletic Club in Los Angeles if Manager McCarry and the fighters come to terms which are in process of negotiation. McCarry has hidden this card up his sleeve for the November date for some time, but Eddie Toy, manager of Neary, gave the whole thing away last night in a dispatch to The Times from Milwaukee. He says:

"I have posted \$1000 in Chicago that Charlie Neary can beat Ed Herman in a twenty-round bout. I saw Herman in Chicago, and he told me if he did

In some of the records held in the East the Californians are so

CLASS GAME ENDS IN TIE.

FRESHMEN AND SOPHOMORES UNABLE TO SCORE.

Occidental Teams Cannot Settle the Supremacy on Gridiron—The Preps Claim Championship of College Because They Were Only Ones to Cross Goal Line.

The Occidental freshmen and sophomore football teams played each other to a standstill, yesterday afternoon, both failing to score. The game was substituted for the usual class rush and each team fought hard to bring honor to its class, but there was not enough difference in the strength of the teams to be of any avail under the new rules. The game clearly showed that the old method of playing is useless in the new game, and the play will have to be revolutionized.

The sophomore team was much heavier than the freshman team, but was unable to gain the necessary ten yards, except on three or four occasions. Trick plays will have to be largely resorted to in order to gain the necessary distance in three downs. The new rules allow many plays that were not able to be used last year. When new plays depending on the forward pass are formulated it will not be so hard to make the ten yards, but plays directed against the line or straight end runs will not be able to advance the ball against a team of equal strength. Heavy men in the back field probably will be replaced with lighter and faster men. Speedy backs are absolutely essential in the new game, and weight is of secondary consideration.

The sophomores were favorites for yesterday's game, as they had a heavier and more experienced team. Five of last year's varsity were in their line-up. The freshmen were lighter, but what they lacked in weight they made up in grit. The sophomores resorted to line bucks and although their heavy backs gained a few yards, they seldom were able to make their distance. The punting on both sides was fair. Thacher outkicked Marshall. Hodge and Conrad played fast ball

THROOP'S SCHOOL TEAM.

Prospects Unusually Bright for First-Class Team to Represent Pasadena.

SCOTT M. LEE, Throop's football captain.

Throop Polytechnic High School of Pasadena is preparing for the opening of the High School football season with unusually bright prospects for a strong team. The Pasadena institution opens this year with eight old men, all except one of whom held positions regularly on the first eleven last season. Besides these, three star players from other 1905 high school teams are registered.

The new men will have some pretty hard places in the line-up to fill, as the five players from last year's team who have not returned count among them some star men. Capt. Archibald, who headed the team last year, will not be back; and the other four absentees are Link, fullback; Crowley, the star all-round athlete of Throop, who is now making good on the Stanford Rugby football squad; Maully and Melvin.

The players who will form the nucleus for this season's team are Captain Scott Lee, halfback; Arthur Gabriel, end; Lucian Wilson, tackle; Roy McDonald, tackle; Horrell and Jones, ends; Roy Williamson, guard; and George Stoney, half. Gabriel, Lee and Stoney are a trio of stars that will show up well in a game with any of the other schools, and with the well-balanced line that can be formed out of this material, Throop will only have to develop a good back field from her new men to put a strong team in the field.

In addition to the old men who are back, two stars, players from Redlands high are out for positions this year, and will add greatly to the strength of the team. Hoit, who captained the Redlands team last year, will fill in the vacant place in the line at center, and Link's place at full will probably be filled by Robinson, the former Redlands fullback.

Two old football veterans from Northern University will have charge of the coaching of the team. Throop this season, Clarence A. Roach and Ben Beinhart, Roach, who is head coach, has never arrived to take charge of the squad.

TROLLEY MEN VOICE THANKS.

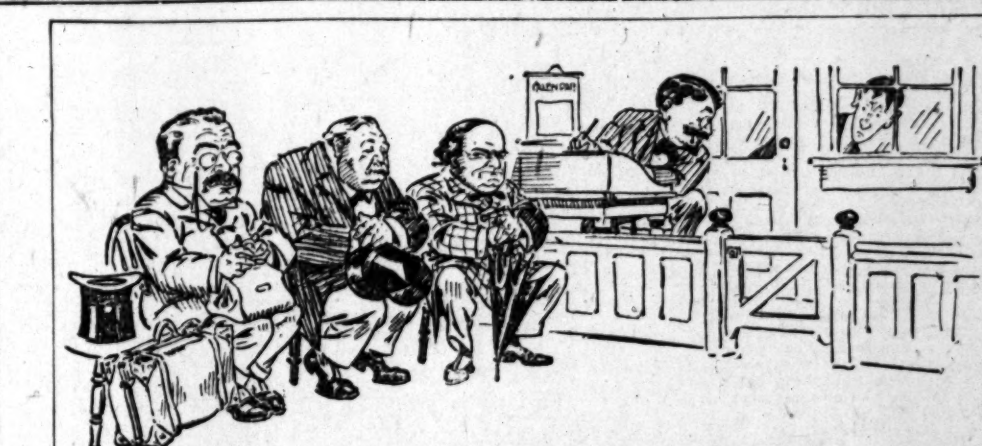

RAILWAY WORKERS IN NOTABLE MEET AT SHERMAN.

Employees of the Los Angeles-Pacific Adopt Resolutions Expressing Appreciation of the Recent Unprecedented Advance in Wages Made by the Company.

Two hundred employees of the Los Angeles-Pacific Railroad Company gathered in the Assembly Hall, under the Young Men's Christian Association Street Railway Alliance at Sherman last night and in speeches, resolutions, and other manifestations, expressed their appreciation of the recent unprecedented increase in wages that went into effect among them last week. Not only were the employees present at the meeting, but seated on the platform with the speakers were many of the officers of the road.

Enthusiastic cheers greeted each one of the officials as he rose to address the meeting. Each had some tribute to pay to the fidelity of the men who are engaged on the line, and words of congratulation not only upon the increased salary that the company granted at the recommendation of the management, but upon the fact that the men have shown that they were deserving of the advance.

The branch of the Young Men's Christian Association that has been established at Sherman for the past year, and has been holding meetings regularly in a large room in the order power-house that had been set apart for its uses by the company, last night therefore resolved, and decorated with American flags, and the fine spirit that exists on the road.

Mr. Dooley on The Power of the Press

By F. P. DUNNE

Mr. Dooley is no respecter of persons; in this article he flings his kindly and mirthful jests at Roosevelt, Bryan, Cleveland, Hearst, Miss Tarbell, Baker, Steffens, Winston Churchill. At every turn the reader is stirred to laughter, and every quip and gibe decked in humor and gaiety suggests a wisdom and knowledge of this frankish world. This is one of the many interesting contributions in

The American Magazine for October

Beginning with this number the magazine will be conducted by John S. Phillips (for many years one of the editors and owners of McClure's Magazine) in association with the following writers and editors:

- Ida M. Tarbell Author of "Life of Lincoln," "History of the Standard Oil Company," etc.
- F. P. Dunne The Humorist and Philosopher, Creator of "Mr. Dooley."
- William Allen White Author of "Boysville Stories," "In Our Town," etc.
- Lincoln Steffens Known from Maine to California as a writer on political subjects.
- Ray Stannard Baker Author of "Railroads on Trial" and many important magazine articles.

The October magazine is their first number. The spirit of the new AMERICAN MAGAZINE is splendidly illustrated in William Allen White's beautiful article "The Partnership of Society," an inspiring piece of writing which every American should read. The whole number is compact of good reading; many capital short stories, including "A Stolen Rescue," by Lincoln Steffens; articles such as "The Wonders of High Explosives," by Samuel Hopkins Adams; numerous portraits and pictures, etc.

CITY LOTS ARE HURTING CROPS.

MORE CHILDREN THAN PEACHES IN SOME DISTRICTS.

Work of County Commissioner of Statistics Shows Some Surprising Items in Growth of Los Angeles. Importance of Figures Collected, but Some Balk at Giving Them.

There is a falling off in the peach crop in Los Angeles county. The reason given for this decrease of the peach crop by John O. Lowe, county commissioner of statistics, is that so many acres of peach orchards have been cut up into city lots and for suburban homes.

Not long ago the Vernon district was a great peach district, now it is a great home district. School houses instead of packing houses are the special need of this part of the county.

The most wonderful increase recorded in Los Angeles is its population. Commissioner Lowe is doing some important work for this county, but he is having his troubles. Many of the manufacturers, growers, shippers and others interested in the development of the industries and development of Los Angeles county balk at giving Mr. Lowe figures which will enable him to compile statistics complete enough to be of value.

They have an idea that if they "give away" these "secrets" it will hurt their business. As a fact all of the blanks filled out by those receiving them, with the details given are confidential and are never made public or the information given to anybody. They simply serve to help form the totals in any line of business which the county calls for.

Another trouble with Mr. Lowe is that those asked for figures have a fear that they will be used for the purpose of raising taxes. This is not so as the Assessor never sees them and even if he did they could not be used by him as only the sworn statisticians submitted to him are available for such a purpose.

The statistics being collected by Mr. Lowe, whose office is Room No. 310 of the Board of Supervisors of each county, on or before the first day of November of each year, to supply the Secretary of the State Agricultural Society upon blanks to be furnished by him for that purpose, statistics showing the products grown, produced or manufactured in said county for the year preceding, and the expense thereof shall be a county charge, to be paid as other county charges against the county.

After the report is filed with the Board of Supervisors the Chamber of Commerce of this county utilizes it and uses the figures to boom the county.

LARGE LEAGUE CONVENTION.

Municipalities' Assemblage at Chicago Today to Be Best Yet, Is the Claim Made.

(BY THE ASSOCIATED PRESS.—A.M.) CHICAGO, Sept. 25.—The tenth annual convention of the American League of Municipalities, which opens tomorrow at the Auditorium, promises to be the largest in the history of the organization.

President R. G. Rhett, Mayor of Charleston, yesterday declared that this year's meeting would eclipse all others of previous years.

"We will have approximately 1500 delegates here with their wives," said the head of the lodge, "and this will mean the greatest convention of the kind ever held."

The mayors and the other city officials of the United States and Canada have taken a deeper interest in the coming meeting than ever before. This is shown especially by the early arrival of hundreds of the delegates.

The convention will continue through Friday.

BUSINESS PIONEER DYING.

The business men of Los Angeles, and particularly the "old timers," will be very sorry to hear that John M. Griffith is lying at the point of death. Mr. Griffith has been a prominent figure in the business, social and church life of Los Angeles for almost a half century. As the head of the John M. Griffith Lumber Company, he has been engaged in active business up to a few days ago, when he was reached the ripe age of 77 years.

He was one of the most rugged men of his age in Southern California up to a few years ago, when he fell in the darkness from the platform of the Santa Fe Railroad depot at San Bernardino and shattered his hip in a terrible manner. In spite of the fracture, his strong constitution pulled him through, and after a few months he was back in the office of the lumber company on Alameda street. A little more than a week ago Mr. Griffith was taken ill at his new home, into which he had just moved, in the southern part of the city. The ailment quickly developed into softening of the brain, and he lies now most of the time unconscious, and his friends are merely waiting the ringing down of the curtain. His daughter and son-in-law are on the way from San Francisco, and were delayed yesterday by a freight-train wreck north of Santa Barbara. Fred T. Griffith, eldest son of the sick man, states that there is absolutely no hope of a revival.

DO YOUR MEALS FIT?

Do You Feel Snug and Comfortable Around Your Waist Line After a Hearty Meal?

Did your last meal taste deliciously good to you and did you eat all you wanted? Could you have patted your roundness in glee and felt proud of your appetite and of your good strong stomach? Do you feel rosy now because your last meal gave you no inconvenience whatever? If not you have dyspepsia in some form, and probably never realized it.

If you have the least trouble in your stomach, no matter how little or how much you eat, there is trouble brewing and you must correct it at once.

Most all stomach troubles come from poor, weak, scanty gastric juice, that precious liquid which ought to turn your food into rich red blood.

If you have nausea or gastric juice is weak, if you have sour risings or belchings, your food is fermenting; your gastric juice is weak. If you have loss of appetite, your gastric juice is weak. If you have a bloated feeling of aversion of food, your gastric juice is weak.

You need something in your stomach to supply the gastric juice which is scanty, and to give power to the weak gastric juice. Stuart's Dyspepsia Tablets do this very thing.

Now think—one grain of one of the ingredients of these wonderful little tablets digests 3000 grains of food. They are several times more powerful than the gastric juice in a good strong, powerful stomach. They actually digest your food for you.

Besides they increase the flow of gastric juice, just what you need to get the good possible out of everything you eat. You will never have that "hump of lead" in your stomach or any other stomach trouble after taking Stuart's Dyspepsia Tablets.

Then everything you eat will be digested. It will give you strength, vim, energy and a ready disposition. You'll feel good all around your waist line after every meal and it will make you feel good all over.

Stuart's Dyspepsia Tablets will make you feel happy after eating a good hearty meal. Take one or two after eating. You'll feel fine—then your meals will fit, no matter what or when you eat.

NAPA STRIKERS HELD IN CHECK.
JUDGE ENJOINS THEM FROM THREATS AND TRESPASS.

Portland Cement Company Not to Be Molested by Agitators—Affidavit Filed in Which Charge is Made That Unions Said Strike-breakers Would "Get Their Heads Broken."

(BY THE ASSOCIATED PRESS—A.M.) NAPA, Sept. 25.—In compliance with a request filed Monday in the case of the Standard Portland Cement Company, vs. the Federal Labor Union of Portland, Ore., Judge George H. Wainwright issued an order today to the strikers of Napa Junction which will keep them off the grounds of the company and also keep them from making threats of any kind against the strike-breakers at that place.

M. Feranti made affidavit today in which he states that while he and several of his companions were on their way to work at the cement works, three strikers accosted them and told them they must not go on the property or work for the company and that if they did they would have their heads broken and would receive other injury.

REQUEST EIGHT HOURS.
RAILROAD MEN WANT RAISE.
(BY THE ASSOCIATED PRESS—A.M.) ST. LOUIS, Sept. 25.—As a part of a simultaneous movement, a committee representing the railroads with offices in St. Louis, today presented to the various general managers a request for shorter hours and increased wages. The request stipulates that eight hours shall constitute a day for all switchmen, that foremen be granted 45 cents an hour and helpers 35 cents.

THE CITY IN BRIEF

NEWS AND BUSINESS.

Money Goss, Cost There.

H. H. Hahara, who works at No. 250 South Broadway, told the police yesterday that \$50 was stolen from his coat, which was left hanging in a back room. The coat was not taken.

Sawtelle W.C.T.U.

A meeting of the W.C.T.U. will be held in Sawtelle this afternoon in the Union Mission and Mrs. H. H. Griffith and Mrs. Lucy Blanchard of the local W.C.T.U. will speak and Mrs. C. J. Hill will sing.

Saturday Half-Holidays.

After a discussion extending over several weeks, the Employing Printers' Association yesterday decided on a continuance of the Saturday half-holiday which was given to the workers in the shops of the association during July, August and September.

Hand Crushed.

Eva Tucker, aged 22, whose home is in Hollywood, was taken to the Receiving Hospital yesterday afternoon suffering from a lacerated hand. While feeding a crying baby at the Rice establishment on South Los Angeles street, the young woman's hand slipped and was crushed.

Forty Dollars for Burglars.

Burglars entered the home of M. T. Anderson, No. 780 West Twenty-second street, yesterday, and secured \$40. The thieves had evidently been watching the house, the police say, for they found the cash without much search. They entered while Mrs. Anderson was in the front of the place.

Mr. Meacham Injured.

Mr. Meacham, father of Ida M. Strobbridge, is at home suffering from painful bruises and a severe jar which he received a few days ago while staying at San Pedro, in his daughter's home, the "Wick-up." He fell through loose boards on a high sidewalk, and though no bones were broken the fall proved a hard shake for a man over 50 years old.

Sister Can't Find Smith.

Inquiry has come from the British Vice-Consul at Breslau, Germany, for a British subject, Bernhard Smith, a watchmaker, about thirty years old. His relatives have not heard from him for some time. His last known address was No. 238 East Fifth street, this city, but a letter recently written to him at that address by his sister was returned by the postal authorities.

Steam Engineering.

John F. Stratton, who has been engaged to teach a course in steam engineering at the Young Men's Christian Association, delivered his first lecture last night. He outlined the course to be taught, and declared the highest positions in steam engineering are open to young men who can work up from the bench, a special course in steam engine salesmanship will be given. The night school of the Y.M.C.A. will open Monday evening at No. 1044 South Hope street.

On the Model School.

Miss Jane Brownlee, a noted educator of Toledo, O., who has been spending the summer in California, will speak at Blanchard Hall this evening at 8 o'clock, under the auspices of the Los Angeles Fellowship. Her subject will be "What a Model School Would Be Like." Miss Brownlee's work, while connected with the public schools of Toledo, attracted the attention of leading educators, and she is completing arrangements to deliver a series of lectures in the principal cities before educational societies and teachers. There is no charge for admission, and all should be in their seats before 8 o'clock.

Ram and Jam of Cars.

A collision between Belt Line cars No. 77 and No. 781 at First street and Broadway last night at 6:30 o'clock caused a congestion of traffic of all cars passing the intersection for nearly a half hour. Belt Line car No. 781 was following car No. 77 closely. The former had just passed the switch and was about to proceed west on First street when the car following ran off the track and instead of going north on Broadway, jolted into the car ahead. The car following, carrying Angelo Heights, Belt Line, and Temple-street lines were all blocked, and nearly one hundred cars were held until the trouble was straightened out. Many extra cars were running on the lines to accommodate the circus goers.

DRAW KNIVES ON OFFICERS.

Circus Roustabouts Offer Battle Against Police Who Seek to Arrest Them.

Infra battle between the police and the roustabouts of the Pantages-Strauss circus at show grounds last night. Detective McNamara was cut with a dull instrument on the back of the head and four of the showmen were battered and bruised.

The fight was the result of the arrest of three circus men by the detective on a charge of drunkenness. The police won the victory, but only after a hard fight, in which the showmen tried to stab the officer.

A considerable disturbance had been caused by the drunken circus men during the evening show, about 9:30 o'clock the detective arrested Ed Coleman, John Carter and Charles Dowd. As he was leading the men to the gate to turn them over to the police, William Francisco, a negro, stole up behind the officer and struck him a stunning blow with something.

Officer George Home was standing near and leaped upon the negro's back. Before the policeman was aware of it Francisco and another negro were struggling to stab the officer. McNamara had recovered himself sufficiently to go to Home's aid and Officer Jack Walsh was closely following.

Just as the police were about to quiet the disturbers, a crowd of armed ruffians armed with knives, belonging to the circus, swooped down upon the officers and a general fight ensued. Several more officers were on the scene in time to prevent the circus men from using their knives, which they were wielding viciously. Had the police not been prepared for the attack they believe that some one would have been fatally injured if not killed.

STRANGE ITALIAN QUAKES.

ROME, Sept. 23.—[Exclusive Dispatch.] The earthquake shocks which have been felt very day this month in Sicily baffled all explanations as to their cause and character. They are accompanied by a strange phenomena of activity in the geysers, while the volcanoes of Etna and Stromboli remain dormant. The continued rocking, although often almost imperceptible, has damaged buildings in various places. The alarm of the inhabitants of towns increases with each shock, and fear a great eruption of Etna, which, according to legendary predictions, is to be preceded by two months of daily shocks.

Women's Waists

Display of the Richest Creations.

We are just as determined that no assortment of women's waists in any one store west of the Rockies shall excel ours in beauty, extent, or variety.

With that determination uppermost we laid plans for this season to show an authoritative expression of style, all that is complete revelation of all that is correct, all that is modish, and all that is beautiful.

It is indicative of the comprehensive collection that you will find here all season long. Bring your waist wants and ideas to "Siegels." They will be splendidly fulfilled.

COTTON AND LINEN, ELEGANTLY TAILORED WAISTS. PRICED \$2.50 UP.

SILK TAILORED WAISTS IN NEW PLAIDS AND IN SOLID COLORS. PRICED \$4.50 UP.

DRESSY BLOUSES IN LACES, NETS, AND FANCY SILKS. PRICED \$5.85 UP.

Women's Dainty Under-Muslins

The underwear that has gained both prestige and reputation by every woman who has ever worn it. The numberless styles and the exquisite creations which makes it particularly attractive to shop here, and prices are also attractive and popular.

Bridal Sets

Beautiful display of matched sets for wedding trousseaus. A vast variety of exclusive designs in imported French hand-made, and of domestic types.

does not cure a headache—nor a fine label guarantee a fabric value.

We are not satisfied with the fabric maker's guarantee. All our fabrics are given our infallible acid test.

We see to it that there is the makers' shrinkage. We give all our fabrics a double shrinkage by our own superior wet-dyeing process, that takes every ounce of the shrinking that is in a fabric out of it.

We see to it that there is the least possible chance for discoloration from the first process in the making of a Brauer-Krohn Suit to the last finishing touches.

Then, to clutch things for you, we guarantee satisfaction or a new suit.

TURNING DOWN DEMANDS
The manager of one savings bank in the city said: "Why it is a fact that we are turning down demands for money to finance real estate deals, partly because we cannot meet the demands and partly because we disapprove of them. There are some good projects put before us, but we have no money to loan for such purposes. Others are put before us which are utterly unsound, and it would be the worst kind of wildcat banking for us to put out depositors' money into such securities."

Some Big Loans
The manager of a big savings bank said: "It is foolish to talk about the savings banks standing in the way of progress and in the way of the prosperity of the city. This bank has loaned \$25,000 at 5 per cent. to help erect a ten-story building on the corner of Hill and Fourth streets. The building is a great steel building, and it would if it were put into outside funds be a great help to the city. We have made another loan to a customer for a substantial improvement to go on the corner of Main and Seventh streets. It is only \$50,000, and we have loaned the money at 5 1/2 per cent."

GIRLS' COLLEGIATE OPENING.
Attendance of Two Hundred Assured the Coming School Year at Casa de Rosas.
The Girls' Collegiate School will begin its fifteenth year of work tomorrow morning, with a most favorable outlook. The school has grown considerably in every way since last year. There are more students, an attendance of 200 being assured, and this has necessitated the annexation of another building to the group now connected with Casa de Rosas. The new building, at the rear of South Hall, has been arranged for the use of the young ladies, and will be known as the Junior Hall. The faculty has been increased, several competent teachers having been secured from various eastern institutions. Miss M. Estelle Porter, A.B., recently in charge of the commercial department at the University of Missouri, is dean of Junior and South Halls. Miss Edna L. Smith, a graduate of the Sargent School of Gymnastics, which is connected with Harvard University, and known as one of the best in the country, has come to take charge of gymnastics and physical culture, succeeding Miss Helen Armstrong in the gymnasium work.

GERMAN CONFERENCE.

MUSIC AND THE STAGE.

College has just taken a new year's musical work, and provided you may prepare a musical number for the coming year, the work of this well-known college, and a number of excellent instructors have allied themselves with its faculty.

Dwight C. Rice, director of the college, has labored faithfully to bring this branch of the institution up to the high standard which it now occupies, and prophesies the most successful year in the history of the college. Rice is also professor of music, and has been connected with the best-known institutions of the country as an instructor in this branch.

At the head of the vocal department is Mrs. Catherine Collette, who, as the principal soprano of the college, has established an enviable record in church and concert. Mrs. Collette prepared herself for the position in Paris, where she studied for many years under the direction of the great vocalists of the organ school, and is also professor of voice.

Over the piano department, which has been unusually successful in the past, presides the well-known pianist, Mr. J. H. Smith, who is also professor of piano.

The school of music was organized in 1881, with a first-year enrollment of only six pupils. Since that time it has grown rapidly, and now has over 100 students in all departments.

The college, recognizing the musical talent of its students, has substituted each year throughout the four years of study, and the four years of study, for one of the subjects of the course. The work leads to the degree of bachelor of letters.

Mr. Monro's most recent addition to his company, Maude Gilbert, arrived yesterday, and will be seen in the new play, "The Girl in the Red Dress," which she will take the leading role. Maude Gilbert is a former actress of Philadelphia, and has a reputation of unusual good looks.

In the new production, in which Miss Gilbert will take the leading role, she will play "The Girl in the Red Dress," which she will take the leading role.

Belasco, who came down from the city, returned to San Francisco yesterday afternoon.

Belasco reports rapid progress in his new play, "The Girl in the Red Dress," which he is now producing in San Francisco.

Arnold's Flannelettes 15c

Every woman with any pretensions to knowledge of different flannelettes knows that Arnold's bookfold superfine can't be surpassed for looks or wear. We sell the 36-inch width, for which other stores ask 20c, at 15c a yard.

Half Price for Children's School Dresses.

Charming school dresses for children of six to twelve years, of galatea and fine chambrays, are reduced today. All are the fashionable one-piece styles, a number have sailor collars with shields of white pique, and embroidered emblems.

Because we've only one small lot in this particular sort we've marked the \$4.50 and \$4.75 dresses to \$2.25 and \$2.50 each.

"Viyella" Flannels 75c a Yard

A large number of women have been awaiting the arrival of these much-advertised "Viyella" flannels. The magazines have told you that they're all wool, fast color and unshrinkable, hence ideal for suits, shirt waists, night dresses, dressing gowns, men's shirts and pajamas.

New York stores sell them for 75c a yard, we ask no more, even after paying freight charges to the Coast.

Art in Fitting Children's Shoes

A child can buy their shoes here just as safely as a man or woman can. We have several men in our employ who are specialists in fitting children and will put the right shaped shoe on every child's foot.

The Buster Brown shoe for boys is a very sensible shoe and popular with the small boys. The shoe is broad and comfortable, and the shape is just right for growing feet. You can buy them in tan, patent leather and white canvas, \$1.50 to \$2.50 the pair.

Mail orders carefully filled.

Smart Clothes for Boys

Where's the economy in buying a suit that won't look presentable after a week's wear.

Boys' clothes, to be really cheap, must be strong enough in materials and stitching to withstand more hard wear than a man gives his clothes.

We have suits at \$3.50, which in cloth, in sewing and in trimming, equal the average \$5 suits.

Sailor blouse and Buster Brown styles in sturdy gray mixtures, and rich blues—as stylish in cut and as durable as any suit you can buy anywhere at \$4 to \$5. 3 to 10-year size, \$3.50.

Boys' Norfolk Suits of smart gray mixtures, with a pair of straight pants and a pair of Knickerbockers, five dollars. Very exceptional values.

Long-skirted "Busters" of exceedingly rich gray mixtures, tastefully trimmed with silk braid, and fine leather belts, \$7.50 to \$10—these are becoming immensely popular for girls of 5 or 6 years.

Boys' high grade wool suits with straight coats having double vents like the men's, \$10.50. 6 to 10-year size.

Boys' straight pants of strictly all-wool mixtures—exceptionally strong values at our regular price of \$30—specially priced at thirty-five cents.

Gus Vallas. While Vallas stood back of the sergeant's desk calmly awaiting until his pup was restored, Conley held tightly to the dog and demanded that he be allowed to take it to the cell with him.

"Dis dog is mine," cried Conley, as the officer attempted to separate the animal and the alleged thief. "Looks dere, will youse. If dat's not my pup, I'd like to know whose he is. He's de only friend I've got in de world."

Strangely, the dog stood indifferent to the claims of his alleged owner and alleged kidnaper, unmoved at the entreaties of the latter and the coaxing of the former. The police decided to allow the court to settle the case.

Vallas claims that while eating dinner at No. 415 North Los Angeles street yesterday, Conley stole the dog. He followed the man and pointed him out to the officers.

EVENTS IN LOCAL SOCIETY.

Her long tulle veil was fastened with orange blossoms and she carried a bouquet of white roses and ferns. The ceremony took place on an enclosed porch, where an impromptu altar was erected, from which a lover's kiss was exchanged. The bride and groom were surrounded by a large number of guests, who were seated at tables covered with white cloths. The bride wore a gown of white satin, and the groom wore a tuxedo. The ceremony was officiated by Rev. W. C. Clark, who is the pastor of the First Baptist Church. The bride and groom were married at 11 o'clock. The ceremony was a very quiet and intimate affair. The bride and groom were both very happy. The ceremony was a very beautiful one. The bride and groom were both very happy. The ceremony was a very beautiful one.

Miss Fanny N. Hendricks and Dr. Stacy W. Clark, who are to be married at 4 o'clock on Saturday afternoon, have chosen that their wedding shall be a Shasta day. The rooms are to be decorated with the snowy blossoms, and the bride and groom will carry them. The ceremony will be a very quiet and intimate affair. The bride and groom were both very happy. CARRY NEWS FAR BY AUTO.

AGENT OF "THE TIMES" IS TO MAKE GREAT RUN.

Proposes to Make Regular Trips With Papers from the Texas Border to California and Strike Camps of Several Railroads in Course of Construction.

SPECIAL CORRESPONDENCE OF THE TIMES

ALBUQUERQUE (N. M.) Sept. 21.—One of the most extraordinary news items in the world is C. W. Thatcher, of Albuquerque, who, for eighteen months, has been selling the Los Angeles Times and a dozen eastern newspapers and magazines across three hundred miles of New Mexico desert, over which the Santa Fe system is building a railroad. He now proposes to rush across desert and mountain range in a high-power automobile from the Texas border to San Francisco, selling newspapers and magazines in the grading camps of four railroads now under construction.

Eighteen months ago Thatcher came to New Mexico. The Santa Fe was just beginning the construction of its famous cut-off, which slices three hours from the running time between Chicago and Los Angeles. Thatcher, then, was a man of the future, a man of the future, a man of the future.

His entire stock was sold out before he had passed the second camp. The men bought copies of the paper like hot cakes at 10 cents each, while the 10-cent magazines sold for 50 cents. Thatcher turned back to Albuquerque and bought a burro. He had a burro with newspapers and magazines, and he was a man of the future.

There were thrilling experiences in these first three trips which the newswriter made, walking beside the burro. One day, in the early winter he was chased by a band of wandering gray wolves, which he finally frightened off with his six-shooter. Again a snake, a rattlesnake, he had fed and befriended, tried to stick a knife in him as he slept. Once he lost his burro, and wandered for two days, the natives of the region, finding him, brought him to water and a native ranch-house.

But these like these only added zest to the business for Thatcher, and after his third trip he bought a team of swift mules and a buggy. The graders began to look for him, the scheme was no longer an experiment, and engineers and construction officials welcomed him with open arms, for he supplied the news of the outside world, for which the workmen craved.

He arranged a regular schedule and presently the busy way to a spring wagon, in order that he might carry more papers. It is eighteen months since he made his first trip on foot across the desert, and he has made nearly a year Thatcher has been making regular trips in his wagon, racing from camp to camp behind his tireless little mules. He has made money, and he has sold thousands of newspapers and magazines.

But Thatcher is ambitious of his own. The fact that forty miles from the western terminus of the Santa Fe's new line, another new line is building at the end of that another, and at the end of the third line still another, has given him an inspiration. He proposes to sell newspapers and magazines in the grading camps along all four of the new lines. Thatcher has lived in the West from childhood, and he knows the mountains and the ranges from the Panhandle to the Pacific. Forty miles from the western terminus of the Santa Fe, the Southern Pacific is building a line from Southern Arizona to Durango, Colo. Thirty miles from the northern terminus of the Arizona and Colorado line, as it is called, be-

Thatcher and his burro—the origin of the cross-country news service.

gin the grading camps of the Denver, Rocky Mountain and Pacific, building from Denver to Salt Lake. From Salt Lake west to California are the grading camps of the new Gould line, the Western Pacific, now just being located.

Thatcher proposes to sell newspapers to the grading camps on all four lines. He has figured out a route by which he can cover the distance in six weeks, for the spring wagon and the little mules are to be discarded for a high-power motor car. It means a trip from the Texas border to California, a distance of 1800.

Supplies of fresh newspapers and magazines are to be received at every railroad crossing. It will be a transcontinental news service through country reached by no railroad. It will be necessary for Thatcher to drive his car across railroad bridges. He will have to cross the Colorado River on a ferry, and he will go through mountain passes which only a car of splendid strength will stand. But between trips in his spring wagon Thatcher has learned to drive a car, and with his thorough familiarity with the region through which he proposes to travel, he is confident that his plan to expand his business will succeed. The men who have met him plugging along behind his burro, or racing across the desert behind his mules, are also confident that his latest scheme will win.

WHERE FURS COME FROM.

The Hudson Bay Company still the Great Producer—What the Indian Gets for Trapping.

In Paris and Vienna fashion decrees that furs be worn though the need for them does not exist. When Paris arranges its neck and hands in ermine and mink, how can the necks of the really cold countries be clothed against the bitter winds in these same furs? Paris, Vienna and other warm capitals make a sport of our necessities. When fashion favors fox or marten (the latter known as sable) the supply is more nearly equal to the demand. One hundred thousand marten pelts and fifty thousand mink pelts were taken by the Hudson's Bay Co. in 1893, the same average being maintained every year since 1853. But of the ermine, only 9000 pelts are taken annually on an average, so that after a thousand ruffs are made and donned, some one must perform wear the imitation. Pickle as fashion may be, this change in popularity

Thatcher and his burro—the origin of the cross-country news service.

year gives the animals a chance to recover and multiply, so that after an intermittent hunt for the marten and the fox for two years, the Indian will be richly rewarded for his hunting trip. It is the Indian who outside of Russia produces all our furs still, and he continues to barter for clothes, food and trinkets.

But it is very little satisfaction to the prospective purchaser of the attractive and necessary fur to know that Poor Lo only gets 30 cents "in trade" for his mink skins, for by the time the prosperous nations of the earth bid against each other for the privilege of wearing these marks of wealth and fashion Poor Lo's mink skin has taken on a value like diamonds.

The Dutch Maid Servant on a Frolic.

There was no silence in the land of wooden shoes until 4 a.m. The maid servant who, for at least 300 days of the year, walks a chalk line of propriety, even to prudery, forsook her deft blue work dress and ruff cap and on Kermis night puts on her finery. But look out for her and her Jan or Willem, when she and twenty more of her kind are all a-see in roystering abandon—awing a line across the street. Other lines of avenging humanity follow. In boisterous song and highbied-piggledy advance, with occasional edifying circles for dancing, the noisy battalions compel the peaceful pedestrian to make way. It is a sight to see, not in war, but driven to sleep in unconsciousness that makes even bricks soft for many hours, the victims of John Barleycorn lie till the sun is well up. It is too true of many that on such a day they have "spoken to the prince." To Hollanders we need not explain—William E. Griffis in the "World Today."

Friedman Shoe Maker

LECTURE No. 4

Another thing I am very particular about is the "Sewing" in the "ATLANTIC" Shoe. The latest improved Stitches do Clean and Perfect Work that will not give way to the severest strain. Even the Thread must be up to the "Friedman Standard" and that means the Best. There are over a Thousand Stitches in a shoe and it requires skillful handling to join the Linings and different Parts, but the Hundreds of Employees in this Shop know their work like they do their ABC's, and I guarantee that they do it well. Another and a good reason why you should join the "SHOE-WISE CLUB."

Let your next Shoe Experience be with the "ATLANTIC" the BEST product of the GREATEST shoe market on earth.

Both Phone 1839

There were numerous new bids on a new lease, and only one bid associated with the Oil Company, has been received. The company wants 94 cents per barrel and will keep on bidding and will keep on bidding. There is some attempt to buy which seems to be a mistake.

LOCAL PRODUCE MARKET.

Yesterday's Produce Exchange session was the busiest since the increase in the price of eggs has been in evidence. The season was well advanced and the sales made were as follows:

One ton of dried chick, 19 cases of local eggs, 1 car of Highland potatoes, 1 car of fancy eastern cheese, 1 car of fancy western cheese, 1 car of fancy northern cheese, 1 car of fancy southern cheese, 1 car of fancy eastern cheese, 1 car of fancy western cheese, 1 car of fancy northern cheese, 1 car of fancy southern cheese.

Local ranch eggs were the feature of the market. On change on account of the scarcity of all fresh stocks, the price of local eggs was higher than in previous years. The season was well advanced and the sales made were as follows:

Fancy fresh butter is extremely scarce and the price is going to be higher this year than ever before. Good storage butter is also scarce. Reliable butter jobbers state that the price of butter is going to be higher this year than ever before.

Hamburger's
SAFEST PLACE TO TRADE

26th ANNUAL AUTUMN OPENING

Hamburger's
SAFEST PLACE TO TRADE

HAVE YOU ATTENDED THE OPENING? THIS IS THE LAST DAY

From the enormous crowds that thronged our store on Monday it would seem that every woman in Los Angeles County must have viewed the handsome lines of merchandise with which we inaugurate our Annual Autumn Opening. Everything that is stylish in the fashion centers of the three continents will be found here in profusion; but naturally it is millinery and cloaks and suits that engage the most attention. There are handsome garments exhibited and at a high price as any one may wish to go; while others answer all of fashion's requirements and yet are popular priced to meet the conditions of the wage earners' pocketbook. Don't fail to attend this exposition of style.

UNCLE SAM IS CUBA'S PATRON.

Country's Best Customer on
Tobacco and Sugar.

Data Gathered Shows Great
Resources of Island.

United States Can Intervene
Under Treaty Provision.

BY WALTER J. BALLARD.

In view of events in Cuba and the probability that the United States will hereafter have to take a larger direct or indirect share in the government of that "island-box" island, the following facts regarding Cuba and the Cubans will be found of interest, even though in a general way, Americans, perforce, know quite a good deal about their nearest neighbor to the south, by way of the sea.

The island of Cuba is separated from the United States by the Strait of Florida, from Mexico by the Yucatan Channel, and commands the only entrance into the Gulf of Mexico. Extending east and west from the fourteenth to the eighty-fifth meridian, it constitutes the most important part of the northern barrier of the Caribbean Sea, and guards the Windward Passage, the natural route for commerce between the Atlantic Ocean and the "American Mediterranean." In other words, it guards the route of commerce between the Atlantic and Pacific Oceans, via the isthmus of Panama. The climate favors the growth of sugar, the population of which is the same as that of California, 1,750,000.

One sees at once the value of the Cuban control to the United States, either from mutual trade interest and mutual friendship, plus gratitude to the Cuban side, or otherwise. Cuba must be directly or indirectly, a party to the plans and purposes of the United States, not only as regards the American Panama Canal, but also in regard to American-West Indian and American-South American trade and affairs generally. Our plans and purposes therefore will not allow a chronically insurgent Cuba.

AREA OF ISLAND.

The island of Cuba is 780 miles long, and it is, as the Spanish used to say, "curved like a bird's tongue." Its eastern point, Cape Mais, lies directly south of New York City, and its western

point, Cape St. Antonio, nearly south of Cincinnati. Its coast line extends to a point only ninety miles from Key West, Florida. While another point is only 120 miles from Mexico. The island's width varies from 100 miles in the east to twenty-five miles in the west. Its total area, including the Isle of Pines, and the cayos or keys (about 1000 islets, fringing the coast), is 44,000 square miles. Cuba is larger than Virginia, but smaller than Pennsylvania. The coast line is nearly 3000 miles long, in fact, much more, if the indentations are added. Cuba is endowed by nature with unusual facilities for making the most of her favorable situation upon a great and permanent marine highway. Capacious harbors evenly distributed along the northern coast are those of Baracoa, Nipe, Gibara, Neuvitas, Sagua la Grande, Matanzas, Havana, Cabañas, and Bahia Honda; and, on the south coast, Cienfuegos, Trinidad, Manzanillo, Santiago de Cuba, and Guantanamo. There are also scores of safe roadsteads and harbors of moderate size. Hardly a plantation on the island can possibly be far away from a natural outlet for its product, the point of reception for its supplies.

SECRET OF HER WEALTH.

Cuba has three ranges of mountains, some of which, though not of great height are covered with exquisite foliage, with charming valleys while others--on the south coast of Santiago province, rival in height and grandeur, if even they do not surpass any mountains on the North American continent, east of the Mississippi. A study of the geology of Cuba's mountains, says Prof. Marvin Wilcox in "The Americans," reveals the secret of her natural wealth--the fertility and depth of the soil which covers the pretertiary sedimentary rocks forming the base of the island's structure. Approximately, one-half the island has been cleared by 13,000,000 to 15,000,000 acres of forests remain.

Sugar and tobacco always have been and always will be the chief products of the island, and the United States always has been, and always will be, its chief customer, buying of each, in 1904-5-6, fiscal years, as follows:

These figures mean that we have to depend on Cuba for three-fourths of the imported sugar we use, and for 60 per cent. of the imported leaf tobacco we smoke. In Cuba the problem of producing sugar at a profit, despite the constant tendency toward lower prices, has always been solved with success. The island is also making headway in the

growing of bananas, all the exports of which are taken by the United States--\$1,000,000 worth in 1904, fiscal year.

MINERAL RESOURCES.

In the mountainous eastern province of Santiago, deposits of copper, iron, manganese, and lead exist, and some of the mines have been worked extensively. The copper mines at Cobreria, the city of Santiago, were opened in 1824, and ranked as the greatest copper mines in the world until American copper deposits were developed. Iron ore of excellent quality employs several companies east of Santiago, which, together, have produced nearly half a million tons of iron in the best years. Deposits of silver are in the provinces of Puerto Principe, Santiago and Santa Clara, and every province has mines of asphaltum. Cedar, mahogany, pine, lignum vitae, ebony, rosewood, logwood and other pyrowoods are valuable products of the forests for export; for Cuban use the royal palm stands unrivaled. There are also many other less-known tropical trees. All kinds of tropical fruits grow luxuriantly, many of them without cultivation. In order of production they are: Bananas, coconuts, oranges, lemons, limes, pineapples, mango, rose apples, pomegranates, anon, sapote, tamarind, figs, citrons, guavas, siliqua pears, grapes, etc.

MORE CASH NEEDED.

All this fruit growing and exportation needs more intelligent care and management. Cuba, like many of the other most prolific parts of the world, should be controlled and managed by English-Americans, or American-English, which way you put it matters not as to results. Instead of its now being in the possession and control of races who work merely to live, instead of living to work. Cuba, for instance, had and can grow coffee and cotton excellently, but from want of energy has let both industries die out. In all parts of the island grasses grow rankly and forage is abundant, yet by reason of the insurrection against Spain, the number of cattle fell from 1,500,000 to 75,000. Then Americans took hold, building up cattle raising, and now these restless, not-fit-for-industry Cubans are destroying productive things again.

NOT FIT TO GOVERN.

Neither they, nor any of the races like them, will ever be content to do their internal fighting, with the ballot box. They must be governed--not by a foreigner, but by a balance wheel of Anglo-Saxon countries--a solid, thinking middle class--that class which under Cromwell made England what it is, and which is the backbone of the United States today.

CITIES AND TOWNS.

Each of the six provinces has the same name as its capital city. The most populous of the provinces, Havana, has an area of 8610 square miles, and a population of 450,000. The city of Havana alone has 250,000 population, and 199 cities and towns have a population of over 200. Santiago de Cuba, with its famous cathedral, is the sec-

ond oldest city. It is a very important city and was the theater in Cuba of the Spanish-American War of 1898.

It would take pages of this paper to write the history of Cuba, ranging from about the year 1475. Havana, Santiago, Trinidad, Sancti Spiritus and Puerto Principe were founded in rapid succession in the years 1514 and 1515. Cuban history is simply a succession of risings, insurrections and quarrels, ending in "Cuban independence"--the free gift of the Americans, people--which independence the present thousands of insurgents against their own created authority, are now recklessly abusing.

OUR RIGHT TO INTERVENE.

Fortunately, the treaty with the United States under which the Cubans secured independence, contains this provision: Article III: That the government of Cuba consents that the United States may exercise the right to intervene for the preservation of Cuban independence, the maintenance of a government adequate for the protection of life, property, and individual liberty. That article is as clear as the noon-day sun. The United States can, when it chooses, if the life, property, individual liberty are in danger, as now, take possession of the island and hold it indefinitely by consent, or by force of arms, till such a government is established, as can and will fully protect life, property and individual liberty. It begins to look as if that emergency is now upon us.

TURN HOSE ON HER.

Woman Invader at Avalon Retires After Being Drenched With Salt Water.

AVALON, Sept. 25.--The San Diego invasion today proved a rather tame affair. Her first move was to pass Avalon, and then onto Pebble Beach. Arrived there, Pebble Beach did not look well to the invaders, and Capt. Bell turned about and made for Avalon Bay, attended by a flotilla of vessels, the Torques, loaded with deputies, the fishing smack Alpha. She made no attempt to tie up at the wharf, but anchored well out and with small boats landed her forty passengers in front of the private grounds of P. Gano, the scene of Saturday's landing. This was a case of "let the women do the work." It was high tide and there was little space in the corner where they occupied, and the wire fence surrounded by water prevented them from pommeling down town. The men meekly sat down and discussed the situation, till stirred by a woman who found a trail up the cliff and started up. She was stopped by Gano's emissary and ordered off the property, in company with two other women and two men, entered a skiff, and after working the postoffice row, attempted to climb over the eight-foot fence.

RIVERA FRUIT EXCHANGE.

Will Handle About Twice as Much This Year as Last--Two Hundred Acres Owned.

RIVERA, Sept. 25.--When the name Rivera is spoken, one instinctively thinks of walnuts, as this point has the reputation of being headquarters for the walnut industry. Its oranges are far less well known, but it has many fine orchards of Washington navel, Secretary Elmer G. Hotchkiss of the Rivera Fruit Exchange states that this organization will market from seventy-five to eighty carloads of fruit this winter. They will handle the output of the nearly two hundred acres owned by exchange members in their new packing-house, just being built at a cost of \$7000. This crop will be at least two-thirds of it, prime navel, for which good prices are certain. The exchange, offered at present by L. B. Root, president; Dr. Allen Osburn, vice-president; E. G. Hotchkiss, secretary, and

"YOU DON'T KNOW WHAT YOU WANT," SHOW HIM THAT YOU DO, BY ASKING FOR A FIRST CLASS dealer; he will tell you.

THE FARMERS' AND MERCHANTS' BANK OF Los Angeles, treasurer, is one of the oldest of the fruit exchanges, having been organized in 1892. Last fall it was reorganized, incorporated for \$25,000, and has a rapidly-growing membership. Last season's output was forty-four cars, but that will be nearly doubled this season.

RIVERA PERSONALS.

The Rivera Good Templars had a gala time tonight. Dr. and Mrs. James Trohella, who have recently come here to live, were initiated into active membership, and at the close of the work the members enjoyed a collation and an enjoyable social hour.

Friends of Fred Groton, formerly of this place, but now of Los Angeles, have been interested in the flattering

press notices which have been published of a trio of young composers.

Hardening Daimosons.

Travelers have noted that the blades are made only when the weather is from the north. The explanation is that the blades are hardened by the coldness of the air and the force of the stream.

Atlanta appears much under control. Many reports of extra sessions at the Georgia legislature have been received from this place.

Reports sharp from Chicago. The Chicago stock market is reported to be in a state of confusion.
